

Farrukh

Frontend Developer (React / Next.js)

Tashkent, Uzbekistan | farrukh.front.dev@gmail.com | +998 (88) 811-41-71 | github.com/FarrukhDev-io |
farrukh-portfolio-nextjs.vercel.app

SUMMARY

Frontend Developer with strong expertise in building modern, scalable, and high-performance web applications using **React**, **Next.js**, and **TypeScript**. Proven track record in engineering production-grade web portals, automated platform tools, and REST API integrations. Deep understanding of component architecture, state management, UI engineering, and web performance optimization. Expanding software engineering capabilities through School 21 (42 Network).

EXPERIENCE

Independent Frontend Developer

2024 – Present | Tashkent, Uzbekistan

- Engineered production-ready web applications from concept to deployment using React, Next.js, and TypeScript.
- Architected modular, reusable component systems adhering to clean code standards, reducing UI inconsistencies across client projects.
- Integrated RESTful APIs, managed client-side state, and optimized asset bundling for fast load speeds and Core Web Vitals.
- Managed project deployments on Vercel, ensuring high availability, continuous integration, and responsive cross-browser support.

PROJECTS

School 21 CareerHub (careerhub.21-school.uz)

2026

- Engineered the frontend of an end-to-end career platform enabling School 21 students to connect with tech employers and apply for vacancies.
- Implemented interactive dashboards, student portfolios, job listing filters, and secure authentication flows using Next.js, React, and TailwindCSS / ShadCN UI.
- Designed responsive, accessible UI components and integrated REST APIs for real-time job application tracking and candidate management.

Kokand University - Vacancies & Analytics Platform (www.kualumni.uz)

Oct 2025 – Nov 2025

- Engineered a vacancies and analytics platform for Kokand University, centralizing job postings and automating applicant tracking.
- Constructed dynamic analytics reporting tools for administration to support data-driven decision-making and employment tracking.

EDUCATION

Software Engineering Program | School 21 / 42 Network

2024 – Present

- Expanding backend development, algorithm optimization, C/C++, system programming, and peer-to-peer engineering capabilities.

Frontend Development Program | Najot Ta'lim

Completed

- Completed React, Next.js, TypeScript, state management, and UI engineering modules.

SKILLS

Frontend Core: React.js, Next.js, TypeScript

State & APIs: Redux Toolkit, Zustand, REST APIs, Axios

UI & Styling: TailwindCSS, ShadCN UI

Tools & Platforms: Git, GitHub, Vercel

Languages: Uzbek (Native), English (Professional Working Proficiency)
